

MARIANO SÁEZ SORIANO

JUNIOR WEB DEVELOPER

+34 656 55 89 14

mariano.saesor@gmail.com

Profile

I'm a junior web developer with an interest in both frontend and backend. During my studies, I worked with HTML, CSS, JavaScript, and Java, and in my internships I specialized in React, Next.js, and FastAPI, contributing to applications that integrate artificial intelligence. I enjoy designing clean interfaces as well as solving problems through solid backend logic. I'm looking for an opportunity to keep learning and add value throughout the web development process

Work experience

2025– Present Murcia, Spain

Web developer intern: Buho AI

- Currently completing an internship at an AI automation startup. We develop web applications that integrate artificial intelligence to automate tasks. I work with technologies such as Python, FastAPI, React, Next.js, LangChain, and LangGraph, contributing to the design and development of innovative solutions to improve business processes

2020 – 2025 Warsaw, Poland

Teacher and Class Coordinator

Garrigues Law Firm & University of Warsaw

- Organized and coordinated classes, managing lesson planning, scheduling, and a customized curriculum for legal professionals at Garrigues. At the University of Warsaw, I supported the teaching of Spanish and Biology.

2016 – 2025 Warsaw, Poland

Spanish Teacher

Instituto Sin Fronteras

- Led Spanish courses for diverse groups of students, applying effective communication skills to foster engagement and language learning.

2017 – 2021 Piaseczno, Poland

Aquaculture Engineer and Biologist

Stanislaw Sakowicz Inland Fisheries Institute

- Worked in a data-driven environment focused on river fish physiology. Performed statistical analyses to evaluate the effects of acid-based treatments on digestion, growth, and reproduction in fish.

2015 Cartagena, Spain

Research Assistant

Murcian Institute of Aquaculture Research and Development (IMIDA)

Collaborated on research studying the effects of carbon dioxide stunning on the welfare of gilthead seabream (*Sparus aurata*). Contributed to data collection and analysis.

Stanisława Herbsta 4/83 , Warsaw, Poland
